Who It Is For

-  Needs hands-free calls and texts
-  Tracks fitness metrics during workouts
-  Uses ECG for heart health monitoring
-  Requires GPS navigation without phone
-  Wants water resistance for swimming

Who It Is Not For

-  Doesn't need cellular connectivity
-  Requires longer battery life
-  Needs more storage capacity
-  Prefers budget-friendly smartwatches
-  Wants customizable watch faces

Trade Offs to Consider

- Battery life shorter than newer models
- Storage capacity limited for apps
- Higher cost than budget alternatives
- Limited customization options

How It Compares

- Less battery life than newer models
- Limited storage compared to higher-end watches
- Higher price than basic smartwatches
- Fewer customization options than competitors

Choose This If...

- ✓ Needs GPS and cellular connectivity
- ✓ Tracks fitness and health metrics
- ✓ Requires water resistance for workouts

Skip This If...

- × Wants longer battery life
- × Needs more storage capacity
- × Prefers a more affordable smartwatch
