

# Aresh XY18U30-QC1 3-in-1 Wireless Charging Station

## QUICK BUYER GUIDE

Travelers, office workers, and Apple users need a compact, foldable wireless charger for multiple devices

## At a Glance Specs

---

### CHARGING SPEED

**15W fast wireless charging with 18W adapter**

### DEVICE SUPPORT

**Charges iPhone 17/13/SE, Apple Watch, AirPods Pro/4**

### DESIGN

**Foldable, lightweight travel charger with nightlight**

### SAFETY

**Overheat, short-circuit, and metal detection protection**

### INCLUDED

**Charging cable, wall adapter, and user manual**

### COLOR

**White with LED ambient lighting**

### DIMENSIONS

**7.72 x 6.73 x 1.26 inches when packed**

## Who It Is For

---

-  People who travel with multiple Apple devices
-  Users needing desk-side charging with nightlight
-  Apple Watch and AirPods owners
-  Those prioritizing portability over USB ports
-  Users requiring fast wireless charging
-  Office workers needing compact charging solutions

## Who It Is Not For

---

-  Users with magnetic phone cases
-  Owners of non-Apple devices
-  AirPods with Lightning charging cases
-  Those needing multiple USB ports
-  People requiring app-based controls
-  Users prioritizing tri-folding designs

## Trade Offs to Consider

---

-  Slower charging without 18W adapter
-  Limited AirPods compatibility
-  No app-based controls
-  Nightlight brightness may disrupt sleep
-  Foldable design lacks tri-folding
-  No built-in power bank

## Users Say

---

### ● POSITIVES

- ✓ Compact design fits in travel bags
- ✓ Fast charging works well with iPhone 13
- ✓ Nightlight is convenient for bedside use
- ✓ Includes 18W adapter for speed

---

### ● COMPLAINTS

- ⚠ Nightlight brightness too bright for sleep
- ⚠ No tri-folding option for smaller devices
- ⚠ AirPods 4 charging case not supported
- ⚠ Manual lacks detailed setup instructions

## How It Compares

---

- Better than single-device chargers for multi-device use
- More portable than desktop charging stations
- Slower than dedicated power banks
- Fewer USB ports than multi-port hubs
- Includes wall adapter unlike standalone docks
- Less flexible than app-controlled smart docks

## Choose This If...

---

- ✓ You need a portable charger for multiple Apple devices
- ✓ You want wireless charging with a built-in nightlight
- ✓ You prioritize fast charging over extra USB ports
- ✓ You travel frequently with iPhone and Apple Watch
- ✓ You need a compact desk charger for home use
- ✓ You want 15W wireless charging with 18W adapter

## ✗ Skip This If...

---

- ✗ You require multiple USB ports for peripherals
- ✗ You use non-Apple devices regularly
- ✗ You need app-based charging controls
- ✗ You have magnetic phone cases
- ✗ You prioritize tri-folding designs
- ✗ You need power bank functionality
