 BATTERY TYPE Lithium Ion Polymer Battery	 CONNECTIVITY Bluetooth 5.0 for iOS/Android
 WATER RESISTANCE IP68 Dust/Water Resistant	 GPS COMPATIBILITY GPS via Smartphone Only
 STORAGE 1GB RAM + 128MB Internal Memory	 STRAPS 2 Included Adjustable Straps

Who It Is For

-  Outdoor adventurers needing navigation tools
-  Fitness enthusiasts tracking multiple sports
-  Military personnel requiring rugged durability
-  Hikers needing emergency lighting
-  Campers requiring weather alerts
-  Users needing 24/7 health monitoring

Who It Is Not For

-  Swimmers needing waterproof ratings
-  Users without compatible smartphones
-  Medical professionals requiring clinical accuracy
-  Those prioritizing touchscreen interfaces

Trade Offs to Consider

-  Limited GPS functionality without phone
-  No medical certification for health data
-  Non-touchscreen interface
-  No app integration beyond Da Fit

How It Compares

- Longer battery life than most fitness trackers
- More durable than standard smartwatches
- Fewer health metrics than medical devices
- Less waterproof than sport watches

Choose This If...

- ✓ Need 100+ day battery life
- ✓ Require outdoor navigation tools
- ✓ Want 24/7 health tracking
- ✓ Prioritize durability over style

Skip This If...

- ✗ Need waterproof for swimming
- ✗ Require medical-grade health data
- ✗ Want touchscreen interface
- ✗ Need app integration beyond Da Fit
