

# DeadEyeVR Enforcer Haptic Pistol - VR Haptic Pistol for Realistic Shooting Feedback

## QUICK BUYER GUIDE

Serious VR gamers seeking realistic recoil feedback for immersive FPS gameplay

### At a Glance Specs

**ADJUSTABLE RECOIL FEEDBACK**  
Customizable force levels for realistic trigger pull

**QUEST VR COMPATIBILITY**  
Works with all major VR FPS titles

**MODULAR DESIGN**  
Pairs with rifle stock for extended setups

**USB-C CHARGING**  
Charges via standard USB-C adapter

**CUSTOMIZABLE FIRE SETTINGS**  
Adjust rate of fire and shot delay on demand

**HAPTIC REALISM**  
Simulates physical recoil for immersive gameplay

## Who It Is For

---

- ✓ VR FPS gamers seeking realistic recoil feedback
- ✓ Players wanting immersive shooting feedback
- ✓ Gamers enhancing VR immersion
- ✓ Users needing customizable fire settings

## Who It Is Not For

---

- ✗ Non-VR gamers
- ✗ Seeking lightweight accessories
- ✗ Preferring no customization options
- ✗ Looking for full-body haptic systems

## Trade Offs to Consider

---

- Less than full-body haptic systems
- Requires compatible VR setup
- Limited to FPS games
- Higher cost than basic controllers

## How It Compares

---

- More realistic recoil than basic controllers
- Modular for extended setups
- Customizable settings vs fixed options
- Higher cost but better immersion

## Choose This If...

---

- ✓ Want realistic recoil feedback
- ✓ Need modular setup flexibility
- ✓ Seek customizable fire settings
- ✓ Looking for immersive FPS experience

## Skip This If...

---

- ✗ Don't have VR setup
- ✗ Prefer lightweight accessories
- ✗ Avoid customization options
- ✗ Seek lower-cost alternatives
