Who It Is For

- Tracking stress and sleep patterns
- Monitoring heart health metrics
- Outdoor activity enthusiasts
- Users needing 24/7 heart rate
- Those seeking ECG features
- Wearers with wrist size 5.1–8.6 inches

Who It Is Not For

- People under 22 years old
- Users with known arrhythmias
- Non-English speakers
- Android-only device users
- Those without Fitbit Premium
- iOS users needing Google Maps

⚖️ Trade Offs to Consider

- SpO2 requires frequent charging

- Limited medical diagnostic use

- Premium subscription needed

- Battery drains with GPS use

- No iOS Google Maps support

- ECG restricted to select regions

💬 Users Say

● **POSITIVES**

✓ Excellent stress management tools

✓ Slim design for all-day wear

✓ Accurate sleep stage tracking

● **COMPLAINTS**

⚠ Battery life falls short with GPS

⚠ Premium subscription required

⚠ ECG features limited by region

⇄ How It Compares

- Better stress tracking than Fitbit Charge

- More advanced ECG than Apple Watch

- Longer battery than Samsung Galaxy Watch

- Fewer medical features than Garmin

Choose This If...

✓ Need 24/7 heart rate monitoring

✓ Want ECG and stress tracking

✓ Seek sleep quality analysis

✓ Prefer slim, all-day wear

Skip This If...

✕ Require iOS Google Maps

✕ Don't want a subscription

✕ Need medical diagnostics

✕ Under 22 years old
