## Who It Is For

---

- ✓ Outdoor athletes tracking routes
- ✓ Runners monitoring heart rate
- ✓ Hikers using offline maps
- ✓ Travelers with Garmin Pay

## Who It Is Not For

---

- ✗ Long-duration GPS users
- ✗ Touchscreen-dependent users
- ✗ Users needing more app features

## Trade Offs to Consider

---

- Short GPS battery life
- No touchscreen interface
- Limited app compatibility

## How It Compares

---

- Compare to Fenix 5 for similar features
- Similar to other multisport GPS watches

## Choose This If...

---

- ✓ Need GPS and heart rate tracking
- ✓ Require music playback on the go
- ✓ Use Garmin Pay for contactless payments

## ✗ Skip This If...

---

- ✗ Prioritize long battery life
- ✗ Prefer touchscreen interface
- ✗ Need advanced app integration
