

hecere T5577 RFID Ceramic Smart Ring (125KHZ/13.56MHZ) for Men/Women

QUICK BUYER GUIDE

Customizable RFID tag users needing access control or tracking

At a Glance Specs

MATERIAL

Ceramic body with comfortable wear

RFID FREQUENCY

Dual 125KHZ/13.56MHZ support

SIZE

16mm diameter ring size

COMPATIBILITY

Requires tag copying for use

TECHNOLOGY

360-degree induction design

WIRELESS

RFID-only communication

Who It Is For

-  Users needing customizable RFID tags
-  People requiring access control solutions
-  Wearable tech enthusiasts
-  Those prioritizing comfort in daily wear

Who It Is Not For

-  NFC-enabled smartphone users
-  Users without RFID readers
-  GPS-dependent applications
-  Those seeking ultra-slim designs

Trade Offs to Consider

-  Limited to RFID-only protocols
-  Requires initial tag setup
-  No built-in GPS tracking
-  Not ideal for discreet wear

How It Compares

- RFID vs NFC compatibility needs
- Ceramic vs metal material choice
- Setup requirements vs instant use
- 16mm size vs slim profile alternatives

Choose This If...

- ✓ Need RFID tag customization
- ✓ Prioritize comfort in wear
- ✓ Require access control solutions
- ✓ Prefer ceramic material durability

Skip This If...

- ✗ Need NFC smartphone integration
- ✗ Require GPS functionality
- ✗ Seek ultra-slim design
- ✗ No setup capability available
