Works with iPhone and Android phones

 **DISPLAY SIZE**
1.85 inch HD touchscreen

 **BATTERY LIFE**
300 mAh for daily use

 **WATERPROOF RATING**
IP68 water resistance

 **CONNECTIVITY**
Bluetooth for app sync

 **WEIGHT**
1.23 ounces for all-day wear

Who It Is For

- ✓ Need to answer calls without phone
- ✓ Track daily health metrics
- ✓ Want customizable watch faces
- ✓ Seek waterproof durability

Who It Is Not For

- ✗ Require GPS tracking
- ✗ Need extended battery life
- ✗ Use only iOS devices

Trade Offs to Consider

- No GPS navigation support
- Shorter battery life than competitors
- Limited OS compatibility
- Fewer advanced health sensors

How It Compares

- Lacks GPS compared to premium models
- Battery lasts 1-2 days vs 3-5 days
- Fewer than 200 watch faces
- No third-party app support

Choose This If...

- ✓ Need call handling on the go
- ✓ Prioritize health tracking features
- ✓ Want stylish customizable faces
- ✓ Seek water-resistant durability

Skip This If...

- × Require GPS navigation
- × Need longer battery life
- × Only use iOS devices
