Who It Is For

- ✓ Users needing a charger for Garmin Forerunner 935/945/955/965/970
- ✓ Those prioritizing fast charging performance
- ✓ People requiring over-voltage protection
- ✓ Users with limited desk space for short cable

Who It Is Not For

- ✗ Users needing a charger for other Garmin models
- ✗ Those requiring longer than 3.3 feet cable
- ✗ Customers seeking a warranty guarantee
- ✗ People needing a single cable without extras

Trade Offs to Consider

- Standard 3.3ft length vs. longer cables
- Two cables included vs. single unit purchase
- No explicit warranty vs. manufacturer guarantees
- USB Type A connector vs. newer USB-C standards

How It Compares

- Matches Garmin's official charging specs
- Offers similar safety features to branded cables
- Shorter than some third-party alternatives
- Includes two units for backup charging

Choose This If...

- ✓ You need a charger for Garmin Forerunner 935/945/955/965/970
- ✓ Fast charging is a priority
- ✓ You want over-voltage protection
- ✓ You need a compact desk-friendly cable

Skip This If...

- ✗ You require a longer charging cable
- ✗ You need a warranty guarantee
- ✗ You want a charger for other Garmin models
- ✗ You prefer a single-cable solution
