 **MAGNETIC DESIGN**
Strong magnet aligns automatically with charging ports

 **POWER SPECS**
Input 5V/1A, Output 5V/0.3A for safe charging

 **CABLE LENGTH**
3.3ft/1m for flexible placement

 **INCLUDED COMPONENTS**
Single charging cable with 24-hour support

 **SAFETY FEATURES**
Over-current and short-circuit protection

Who It Is For

- ✓ Users with Huawei Band 10/9/8/7/6
- ✓ Owners of Huawei Watch Fit series
- ✓ Honor Band 7/6 owners
- ✓ Honor Watch ES users

Who It Is Not For

- ✗ Owners of non-compatible smartwatches
- ✗ Users needing faster charging speeds
- ✗ Those preferring wired charging only
- ✗ People without a 5V 1A adapter

Trade Offs to Consider

- Slower than some dedicated smartwatch chargers
- No built-in battery for wireless use
- Limited to magnetic charging ports
- Requires compatible adapter for optimal performance

How It Compares

- Universal compatibility vs. device-specific chargers
- Magnetic convenience vs. traditional USB ports
- Built-in safety vs. generic charging cables
- Single cable solution vs. multi-device kits

Choose This If...

- ✓ You own compatible Huawei/Honor bands or watches
- ✓ You want magnetic auto-alignment convenience
- ✓ You need safety protections for charging
- ✓ You prefer a single cable solution

Skip This If...

- ✗ You need faster charging speeds
- ✗ You only use wired charging ports
- ✗ You want a built-in battery charger
- ✗ You have non-compatible smartwatch models
