## Who It Is For

---

- ✓ Users needing edge-to-edge protection
- ✓ Those with sensitive touchscreen devices
- ✓ Privacy-conscious smartwatch owners
- ✓ Face ID users requiring precise hole alignment

## Who It Is Not For

---

- ✗ Owners of non-GT 3 Classic 46mm models
- ✗ Users needing tempered glass alternatives
- ✗ Those prioritizing maximum scratch resistance

## Trade Offs to Consider

---

- Less scratch resistance than tempered glass
- Limited to specific Huawei Watch models
- Requires careful Face ID alignment

## How It Compares

---

- Vs tempered glass: No breakage risk but less scratch resistance
- Vs flat films: 3D curved edges for better screen coverage
- Vs generic TPU: Higher 6H hardness rating

## Choose This If...

---

- ✓ Need anti-scratch ultra-shatterproof protection
- ✓ Want 3D curved edge coverage
- ✓ Require privacy shielding for smartwatch

## ✗ Skip This If...

---

- ✗ Need tempered glass alternatives
- ✗ Own non-GT 3 Classic 46mm models
- ✗ Prioritize maximum scratch resistance
