Who It Is For

-  Users tracking daily activity and sleep
-  Athletes needing 100+ workout modes
-  People prioritizing long battery life
-  Those requiring water resistance for swimming
-  Individuals syncing with Android/iOS devices
-  Users wanting a lightweight design

Who It Is Not For

-  Users needing GPS navigation
-  People requiring Samsung Pay support
-  Those wanting a smartwatch with notifications
-  Individuals needing a larger touchscreen
-  Budget-conscious buyers
-  Users needing US warranty coverage

Trade Offs to Consider

-  Battery longevity vs. frequent charging
-  Limited storage for apps and data
-  No GPS for location tracking
-  No Samsung Pay for contactless payments
-  Sleek design vs. larger display size
-  International model vs. US warranty

How It Compares

- Longer battery life than most fitness trackers
- More workout modes than basic activity trackers
- Better water resistance than non-waterproof models
- Sleeker design than bulkier smartwatches
