Individuals with fragile screen protectors

Trade Offs to Consider

- Thinner than original screen but may feel fragile
- Requires careful installation for bubble-free results
- Limited to specific Garmin models only
- Higher cost compared to basic screen protectors
- Does not protect against liquid damage
- Requires regular cleaning to maintain clarity

Users Say

● POSITIVES

- ✓ Clear and scratch-resistant
- ✓ Easy to install with included kit
- ✓ Protects against everyday wear and tear

● COMPLAINTS

- ⚠ Installation can be tricky for some
- ⚠ Does not cover all edges perfectly
- ⚠ Limited to one specific model

How It Compares

- Better scratch resistance than basic protectors
- Thinner than most screen protectors
- More expensive than standard options
- Includes charger port protection
- Requires careful installation
- Limited to Garmin Epix Gen 2 only

Choose This If...

- ✓ You need scratch-resistant screen protection
- ✓ You want anti-fingerprint coating
- ✓ You have a Garmin Epix Gen 2 smartwatch
- ✓ You value clear, high-resolution viewing

Skip This If...

- ✗ You prefer no tempered glass
- ✗ You need protection for other devices
- ✗ You want a thinner screen protector
- ✗ You don't want to install it yourself
