Who It Is For

- ✓ Charges Rokid Max AR glasses
- ✓ Connects VR headsets to gaming consoles
- ✓ Fast charges smartphones and tablets
- ✓ Ideal for gaming setups with AR accessories

Who It Is Not For

- ✗ Users needing outdoor durability
- ✗ Those requiring USB 3.0 data transfer
- ✗ People with long cable length needs
- ✗ Users needing 24-pin interface compatibility

Trade Offs to Consider

- Shorter length than standard USB-C cables
- No built-in data transfer support
- Limited to 24-pin device compatibility
- Requires indoor use only

How It Compares

- Shorter than standard USB-C cables
- No data transfer capability
- Limited to 24-pin devices
- Less durable for outdoor use

Choose This If...

- ✓ Need reliable charging for AR glasses
- ✓ Use VR headsets with gaming consoles
- ✓ Prioritize fast charging for accessories
- ✓ Stick to indoor device connections

Skip This If...

- ✗ Require outdoor durability
- ✗ Need USB 3.0 data transfer
- ✗ Want longer cable length
- ✗ Need 24-pin interface compatibility
